

Miles Minton

miles@finalitylab.com · linkedin.com/in/milesminton

Engineering leader. Protocol architecture, smart contracts, and tokenized-asset systems.
Led at Allora and Trustless. Shipped at Meta.

EXPERIENCE

Founder · Finality Labs LLC

Apr 2025 – Present

Independent engineering and advisory through a US S-Corp

- Fractional CTO and scoped engineering builds for crypto and fintech teams.
- Hands-on protocol architecture, smart contracts, and product engineering.

Head of Engineering · Power Finance

May 2025 – Apr 2026

Embedded via Finality Labs

- Only engineer. Owned the full technical surface.
- Smart contract architecture, protocol security, and product engineering.
- M0 integration. Tokenized energy markets: issuance and staking.

Engineering Lead · Allora Labs

Nov 2023 – Jul 2024

Formerly Upshot · Lead Smart Contract Engineer, Sep 2022 – Nov 2023

- Led Allora engineering.
- Built an AI × crypto blockchain on Cosmos. allora.network
- Led smart contract development through the Upshot → Allora rebrand.

Founder, CEO & CTO · Trustless

Dec 2019 – Apr 2023

zkSync protocol · trustless.fi

- Founded and led the company as CEO and CTO.
- Smart contract architecture, mechanism design, and audits.
- Grew to 25k Twitter and 40k Discord.

Senior Software Engineer · Meta

Nov 2014 – Dec 2018

Menlo Park

- Shipped products used by 100M+ people.
- Full stack: iOS, Android, Hack, React, MySQL, Hive.
- Volunteered for intern-manager and bootcamp-mentor roles.
- Led interns, bootcampers, and intern managers.
